

Audio Materials

The Doucette's audio collection is comprised of both audiocassettes and compact disks.

It contains both music recordings and audiobooks. The majority of the audiobooks are readings of children's books.

Audio materials are shelved side-by-side with books in the same call number.

Searching

- To limit your search to audio materials, use the term 'sound recording' as part of your search
e.g. lord of the rings sound recording
- To locate recordings of specific pieces of music simply search for the name of the song – e.g. searching for 'Joshua Giraffe' will find Raffi's *Baby Beluga* recording, which contains this favorite.
